

# THE ECO SHOP

## **DON'T MISS OUT!**

**An exciting new project is soon to be launched in this area!**

We, Ollerton & District Economic Forum (ODEF) are opening an '**Eco Shop**' in New Ollerton, next to the Natwest bank. We are not however able to 'sell' goods to start with, the aim of the shop is to promote local shop keepers and companies that sell products with an eco, organic, fairtrade and/or environmental theme.

The idea is that we have samples (which can be returned) of the products you sell in the Eco Shop, along with details of where your shop is based. That way, visitors to the shop can have a look at what is available in the local area and if something interests them, they will hopefully pay your shop a visit and buy!

We can also display any of your leaflets, business cards, posters etc to point visitors in your direction.

The shop will also be used to showcase the work of local organisations such as ROB (Recycling Ollerton & Boughton), The Furniture Project and Feel Good Foods.

If you stock products that you think will be suitable for the Eco Shop (non-perishable) and/or have any posters/leaflets that you would like displaying, please pop round to ODEF or contact us for further information.

Best Wishes

**Lindsay Gilbert and Carol White**
